

Introducing the

SPECTROLINE® LeakTracker™

A Rugged, Versatile, Budget-Friendly UV Leak Detection Flashlight!

Works With
All Dyes!

The LeakTracker™ is a durable, yet economical, LED leak detection flashlight that delivers pure UV light for superior fluorescent dye response. It works with *all* fluid dyes and systems, producing a brilliant glow that makes leaks easier to spot—slashing diagnostic time! The LeakTracker is ideal for all industrial fluid system applications.

KEY BENEFITS:

- More powerful than most corded, high-intensity UV lamps
- Inspection range of 20 feet (6.1 m) or more!
- Works with all oil- and water-based fluorescent dyes, including difficult-to-fluoresce yellow, white and blue dyes—even in dirty fluids!
- Instant on-operation; reaches full intensity immediately!
- Cordless, compact design easily fits into tight spaces
- Anodized aluminum lamp body minimizes corrosion and stands up to years of heavy use
- 100,000-hour LED service life

Specifications

Light Source:	UV LED	Weight:	4.8 oz (0.14 kg)
Lamp Style:	Cordless flashlight	Power Source:	Three "AAA" batteries
Lamp Head Diameter:	1 in (2.54 cm)	Run Time:	4 hours (continuous)
Length:	5.5 in (14 cm)		

LeakTracker™ (P/N LT-300) comes complete with a lanyard, belt holster, three "AAA" batteries and UV-absorbing glasses.
